Economical, Quick Turnaround Service With Assisted Options

Entyre Mortgage Closing Solutions is the only company that offers you a complete range of closing document options so you can select…in real time…the services that meet your exact needs. Our **eMortgageX4™** closing solution offers you a suite of services ranging from the price-leading **Direct Docs**, our self-sufficient solution with immediate turnaround, to our **Reviewed** and **Warranted** options with *real* quality guarantees. No other company provides you with this "Entyre" picture!

Direct Docs

This is our most economical and fully compliant closing package option.

- Free, extremely easy to use application, technical support and forms. All "software" services are .NET web based. This means you have NO software to download, install or manage. You manage all functions using only your standard Internet Explorer browser. Not only will your technology staff appreciate one less piece of software to maintain, you will experience unprecedented flexibility to control your closing doc changes, even at the settlement table in a new location, and receive your changes back immediately.
- Immediate turnaround from order to ready. If not back in 5 minutes… it's FREE.
- Exclusive CUSTOMERCARECENTER™ dedicated to helping you succeed.
- 24/7 web-based service with the most powerful Rules Engine in the industry to assure you accurate, complete, properly assembled closing packages that meet your needs…no more extra or missing forms or fields!
- Automatic calculation of critical complex data to save time and reduce errors.
- Extensive LOS import and data return capabilities to keep your databases accurate too!
- Integrated predatory lending and fraud protection scoring.
- Document tracking and management capabilities.
- Data entry can be done anywhere, any time with Internet access.
- Document delivery anywhere via web, e-mail, fax or digital overnight courier.

Reviewed Docs

With a single mouse click you can choose to have your doc package Reviewed by one of our Closing Consultants. This offers all the advantages of Direct Docs plus a review* of your closing docs from some of the most experienced people in the industry with over 160 man-years of combined experience. Since this option routes your closing document package to our Closing Consultants for a review of your package before it is released, it takes a little longer than a Direct document set, but you can still expect some of the fastest results for manually assisted document preparation in the industry and a friendly and knowledgeable person to guide you when you need it!

Warranted Docs

This guaranteed accurate* solution takes your reviewed closing package a step further, offering not only the forms and calculations guarantee – but a financial guarantee that the data is accurate too! We are the only company that covers you for unexpected closing, or post-closing, costs (up to $3,000) if there is a document error! Of course, since this service involves multiple high-level reviews, it requires extra time. Typical average turnaround times, however, are still 120 minutes or less.

**See Entyre's Terms and Conditions for full warranty descriptions.*
